CAREER OBJECTIVE

To begin a career in software development where I can apply my technical foundation, strengthen my practical skills, and contribute to useful and reliable software solutions.

PROFESSIONAL SUMMARY

Computer Applications student currently pursuing MCA, with a foundation in web development, programming, databases, and Android application development. Interested in building practical, user-focused digital solutions and eager to contribute to a software development team while continuing to learn.

EDUCATION

Senior Secondary (Class X) | Fellowship Mission School

2021

Higher Secondary (Class XII) | Fellowship Mission School

2023

Bachelor of Computer Applications (BCA) | Rajju Shroff Rofel University

2023 – 2026

Master of Computer Applications (MCA) | Uka Tarsadia University

2026 – Present

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript, React

Programming: Kotlin, Java, PHP, C, C++

Databases: MySQL, SQLite, MongoDB

Tools & Platforms: Git, GitHub, Visual Studio Code, Android Studio

Other: SEO basics, backlink building, website content management

PROJECTS

Spa Salon Management Website

Developed a salon booking and management website that allows customers to register, explore services, and book or cancel appointments. Includes an admin dashboard to manage services and appointments.

Technologies: PHP, JavaScript, HTML5, CSS3, MySQL

Fire-Fighting Bot

Built a fire-detection prototype using flame sensors, Arduino/ESP32 hardware, and water-spraying functionality. Supports manual control through a Bluetooth mobile app and automatic operation with Telegram integration.

Technologies: Embedded C/C++, Arduino IDE, ESP32, Arduino Uno, flame sensors

StudyShare Website

Developed an online learning platform concept where students can upload, explore, read, and download study materials to support collaborative learning.

Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB

INTERNSHIP EXPERIENCE

Intern – RND Technosoft | Vapi, Gujarat

3-month internship | 2025

• Created and managed website content using WordPress.

• Gained practical experience with SEO fundamentals and backlink building to improve website visibility.

STRENGTHS

Creative thinking | Continuous learning | Problem-solving | Willingness to learn new technologies
